RIMSKI LOGTENS

As a diligent detail-oriented student, I thrive on learning. Through my experience as a student actor coaching teachers, I developed strong communication and feedback skills, particularly in education focused environments. Through my work as Product specialist, I acquired skills in SEO, CRO, product management and analytic marketing skills. I am currently pursuing a BSC degree in Artificial Intelligence, which challenges my view of both technical skills but also social skills.

EXPERIENCE

August 2021 – July 2024

Student Actor • Kandinsky College

Using acting and constructive feedback teachers were prepared for difficult situations and how to deal with these situations.

June 2024 – January 2025
